Potential On-Field Representative Each School

The responsibilities for this track meet must be shared by all schools. It is of the utmost importance, if this track meet is to be successful, that all schools handle their assigned duties.

Timers, scorers etc., should be ready 10 minutes before the start of their events. All field events workers should pick up their paperwork from the commissioner 20 minutes before the start of event.

Each school should have one representative in the press box to record for their school which individuals in the preliminaries have made the finals. This representative will also be responsible in picking up their school's ribbons during and at the end of the meet.
